

Lake Tahoe Wellness Center

Office policy

Thank you for your confidence in seeking modern Chiropractic as a method to restore your health *Naturally*. Shortly, you will be interviewed by the doctor. After reviewing your completed, confidential health questionnaire, should the doctor feel that your condition be best treated by another health practitioner, you will be advised and referred accordingly. However, should your condition fall within the scope of Chiropractic, a thorough consultation will be undertaken to document your case history. A comprehensive Chiropractic examination will then be conducted to determine the cause of your problem(s).

The examination consists of:

- ✓ *Postural analysis*
- ✓ *Physical examination*
- ✓ *Orthopedic and Neurological examination*
- ✓ *Specific Chiropractic examination*
- ✓ *Radiology (if required)*

You will most likely receive an adjustment with this first visit. This will be discussed with you. After this initial session, examination findings will be interpreted. During your second visit, the doctor will explain her findings and will make recommendations as to the Chiropractic Adjustment Program required in your particular case.

Please Note: In order to achieve the maximum benefit from your Chiropractic Adjustments, it is necessary to follow the program outlined by Dr. Kuehne.

Terms of Acceptance and Informed Consent

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for us both to be working towards the same objective. We do not offer to diagnose or treat any disease or condition other than vertebral subluxation.

If during the course of the chiropractic spinal examination, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. Our only practice objective is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxations.

A patient in coming to the Doctor of Chiropractic, requests and consents to the performance of chiropractic adjustments and other chiropractic procedures and analysis, including if necessary, diagnostic x-rays. The chiropractic adjustment or other clinical procedures are usually beneficial and seldom cause any problem. In rare cases, underlying physical defects, deformities or pathologies may render the patient susceptible to injury. The doctor will not give a Chiropractic adjustment or health care, if she/he is aware that such care may be contra-indicated. It is the patient's responsibility to make it known or to learn through health care procedures whatever he/she is suffering from. A Doctor of Chiropractic is licensed in a special practice and is available to work with other types of providers in your health care regime.

Adjustment: An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments to the spine.

Health: A state of optimal physical, mental and social well-being, not merely the absence of disease or infirmity.

Vertebral subluxation: A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

I _____ have read and fully understand the above statements.

(Print name)

All questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction. I therefore accept chiropractic care on this basis.
